Adit 1

Adit 2

Access via Feather Falls 20N22 then 20N53. Walk part way down ridge on brushy 4WD road, then down ridge to creek crossing. On N side of creek there is a prospect measuring 8'x5'x8'. Another nearby prospect, and a water ditch measuring 2'x2', with prospects running down the hill below the ditch. Another nearby prospect measuring 8'x6'x15'. Walk across creek to south side and climb up to a water ditch measuring 3' wide x2' deep, then down stream several hundred feet to a large flat that has been hydraulic mined. Two adits are located at the base of the steep slope, at the upstream or east end of the flat. The two adits are within 20 feet of each other. 1st adit 4'x3'x8' is located at the base of slope. 2nd adit or prospect 3'x2'x5' is located approximately 20' to the west of the 1st adit.
